## Personal Details

- Nationality : South African
- Driving Licence : C1
- Availability : Immediately

## Experience

- **Bell equipment** 14/12/2021 - 30/11/2022  
Developer support
  - Creating apps and updating the existing apps in MS Power Apps.
  - Developing flows in MS power automate.
  - Looking for errors in the PDF generated in Salesforce by reading every single word in the document, and reporting the errors back to the developers. I performed this task while the updates were still being tested.
  - Double checking excel worksheet if all data is accurate.
  - Testing apps with business analyst team.
  - Capturing data.
  - Helping Salesforce users to install Multi-factor authentication app in their phones.
  - Doing Salesforce administration tasks.

## Objective

I seek challenging opportunities where I can fully use my skills for the success of the organization.
